

Esperanza

A lost and broken heart,
A floating mind with no emotions,
Overtaken and consumed by fear.
Shattered dreams, chasing mirages,
Regret becomes the enemy.

Slowly sinking to the darkest depths.
A looming guilt of impending doom,
Trapped in an endless void.
My smile has abandoned me.
I'm anxious and depressed...

Hoping sun rays find a way to shine,
Light up the vast dark sky.
The moon and stars were my only company,
Now replaced by the outlines of distant terrains.

El sol ilumina lo más profundo,
Y el tiempo me consume sin compasión.
Pero la escurrida es rápida en regresar.

I am amongst the lucky ones.
Imagining a brighter future,
Pondering the mystery of what the next day may hold.
Expanding beyond tomorrow's silhouette.
Seeking to fulfill my human spirit.
