

PLAYING OUTSIDE IS SO MUCH FUN,
MAINLY BECAUSE I CAN SOAK UP THE SUN.
IT'S TOO HOT FOR SOME BUT MUCH NEEDED FOR MOST,
IT KEEPS THIS PLANET ALIVE FROM COAST TO COAST.

THE SUN SHINES DOWN ON US TO
HELP KEEP US ALIVE,
THIS IS HOW THE EARTH STAYS
NURISHED AND THRIVE!

THE TREES REACH OUT FOR THE SUN,
IT FEEDS THE LEAVES AND BARK.
THEY TURN THE SUN'S ENERGY INTO CARBON DIOXIDE,
SO WE BREATHE CLEAN AIR WHILE PLAYING IN THE
PARK.

THE SUN IS TAKEN IN BY EVERY LEAF,
BLADE OF GRASS AND PEDAL ON THE
FLOWER,
IT BRIGHTENS THE WORLD AND CAN
EVEN GIVE YOUR HOME POWER.

THE SUN SUPPLIES US WITH VITAMIN D, AS IT SHINES ON
US WE ABSORB IT THROUGH OUR SKIN,
DRINKING MILK ALSO HAS THIS SAME EFFECT, AS WE GET
HEALTHIER AGAIN AND AGAIN.

THE SUN'S RAYS EVEN REFLECT OFF OF THE MOON,
WHICH GIVES US LIGHT AT NIGHT,

AND WHEN WE CAN'T SEE THE MOON, IT KEEPS OUR
STARS SHINING BRIGHT!

WEST

EAST

Setting

BEFORE MAPS IT WAS EASY TO NAVIGATE THE EARTH
JUST KNOWING THAT THE SUN RISES IN THE EAST AND
SETS IN THE WEST,
I LOVE IT HERE BECAUSE THE SUN MAKES OUR PLANET
THE BEST.

Rising

WE CAN TELL TIME BY THE SUN LIKE BY SUNDIAL,
AND THIS IS HIGH NOON,
WE CAN TELL WHEN IT'S ABOUT TO BE FALL OR
THAT SPRING WILL BE HERE SOON.

WITH SOLAR PANELS ON YOUR ROOF THE
SUN CAN HEAT AND COOL YOUR HOUSE.
THIS METHOD OF USE CAN KEEP LIGHTS ON
FOR MOMS, DADS, KIDS AND MOUSE!
